

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jtd-23-532	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	All quality-controlled raw data, as well as processed data used in publications, will be made available.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	All workflows, protocols, manuals of procedures and operations, consents and data dictionaries will be exactly described and documented.
5	When will data availability begin?	Data availability will begin at the time of publication of the manuscript.
6	When will data availability end?	Data availability will end 5 years after publication date.
7	To whom will you share the data?	We plan to make all data that result from this study easily available to the broad research community, and not limited to future collaborators or co-authors.
8	For what type of analysis or purpose?	To precisely reproduce the results from the raw data.
9	How or where can the data/documents be obtained?	Contact the principal investigator Dr. Zaid Abdelsattar at zaid.abdelsattar@lumc.edu
10	Any other restrictions?	The PIs will disseminate results from this research through presentations at public lectures, scientific institutions and national/international meetings, and publication in major journals. The institutions and PIs will adhere to the expectations for making data and research resources available to the broad research community.
