

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jtd-23-473	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	All data related to this study.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and clinical study report will also be shared if requested. Given the retrospective nature of this study, the requirement for informed consent was waived.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Cardiologists who are interested in studies of percutaneous coronary intervention (PCI) in prior coronary artery bypass graft (CABG) patients.
8	For what type of analysis or purpose?	For analysis to compare the long-term outcomes of PCI of native coronary artery versus bypass graft in patients with prior CABG.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: yangzq100825@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
