

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/jtd-23-848">https://dx.doi.org/10.21037/jtd-23-848</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Laboratory data, CT findings, and time to onset of aortoesophageal fistula was included.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Informed consent form and study protocol will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Within two years of the date of publication, as techniques and treatment strategies may be updated.
7	To whom will you share the data?	Oncologists and esophageal surgeons interested in studying aortoesophageal fistulas.
8	For what type of analysis or purpose?	For an analysis to assess risk factors for aortoesophageal fistula in esophageal cancer patients undergoing radiation therapy.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: ryocobain88627@gmail.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
