

## Data Sharing Statement

<b>Article Info</b>	https://dx.doi.org/10.21037/jtd-23-999	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The early outcomes of anonymized patient's data in particular will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Cardiac surgeons and cardiologists who are interested in the transfemoral transcatheter aortic valve implantation.
8	For what type of analysis or purpose?	For analysis to evaluate the outcomes between open puncture and percutaneous puncture in transfemoral transcatheter aortic valve implantation.
9	How or where can the data/documents be obtained?	If deemed appropriate, data will be provided upon request by contacting the authors via email. E-mail: m3_514@yahoo.co.jp
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
