

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jtd-23-1122	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes. Potentially, this is protected local patient information and would require further ethical review for sharing.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Data regarding operative characteristics and outcomes.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis can be shared and clarified if desired.
5	When will data availability begin?	Immediately at publication.
6	When will data availability end?	6 months following publication.
7	To whom will you share the data?	Thoracic surgeons and their associated research teams.
8	For what type of analysis or purpose?	To assist in larger scale studies of the effects of social vulnerability on lung resection
9	How or where can the data/documents be obtained?	Written requests should be mailed to Dr. Christina Stuart, University of Colorado, Department of Surgery. Email: christina.stuart@cuanschutz.edu
10	Any other restrictions?	We reserve the right to deny data sharing requests. We may balance the potential benefits and risks for each request on a case by case basis.
