

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jtd-23-1369	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	We plan to share data on the correlation between the number of lymph node aspirations and diagnostic yield if there is a valid request.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan will be shared upon request.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year within the publication date.
7	To whom will you share the data?	Pulmonologists who are interested in studies of EBUS-TBNA.
8	For what type of analysis or purpose?	Analysis on the relationship between the number of aspirations and diagnostic yield of EBUS-TBNA in lung cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: cykim@yuhs.ac
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
