<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes, we are happy to share deidentified data, IRB permitting, upon request.
2	If not, would you like to share the reason for your decision?	We will need to request specific IRB approval. We can provide this upon request from other researchers.
3	What data in particular will be shared?	Dataset can be made available upon specific request and assume approved by our IRB.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Analytic code is available upon request. The other referenced documents do not apply to this retrospective study.
5	When will data availability begin?	Data will be made available upon a legitimate request and assuming we can achieve IRB approval to share the data.
6	When will data availability end?	No end period.
7	To whom will you share the data?	Other researchers in the field.
8	For what type of analysis or purpose?	Further research.
9	How or where can the data/documents be obtained?	Upon request to the corresponding author (brooks.udelsman@yale.edu) and assuming IRB approval we can share deidentified data through a secure network.
10	Any other restrictions?	We are simply limited by our IRB. We are happy to provide deidentified data but only upon request from other researchers and after achieving IRB approval.
