

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/jtd-24-201">https://dx.doi.org/10.21037/jtd-24-201</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes, but with restrictions. The datasets generated and/or analyzed in this study are not publicly available due to patient privacy concerns but are available from the corresponding author upon reasonable request.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Data on regional lymph node dissection, data on complications.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	You can get it directly after connecting to the mailbox.
6	When will data availability end?	Within two years.
7	To whom will you share the data?	Medical oncologists and thoracic surgeons who are interested in our studies.
8	For what type of analysis or purpose?	For analysis to evaluate the feasibility of RAMIE in ESCC patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: leijingle66@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
