

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jtd-23-1776	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data will be shared, and we also found a correlation between the time interval from diagnosis of tricuspid regurgitation to surgery and tricuspid valve related events, which has rarely been discussed in the previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date since the technique or survival data may be updated over time.
7	To whom will you share the data?	Cardiac surgeons and cardiologists who are interested in studies of tricuspid valve surgery and arrhythmic surgery.
8	For what type of analysis or purpose?	For analysis to evaluate the efficacy and safety of tricuspid valve surgery and arrhythmic surgery in the patients with tricuspid regurgitation and atrial fibrillation.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: kimeunchae1002@gmail.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
