

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jtd-23-1942	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes, the data that support the findings of this study are available from the corresponding author.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	De-identified data used to produce the results submitted in this manuscript.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	-
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date since the technique or survival date may be updated over time.
7	To whom will you share the data?	To those intending to perform similar research or further research on the topic and who have asked permission for the data
8	For what type of analysis or purpose?	We will provide data to researchers performing similar research including prospective studies.
9	How or where can the data/documents be obtained?	Data can be obtained via email to the corresponding author.
10	Any other restrictions?	We plan to evaluate the potential risks and benefits in relation to each request and then provide the data that could be shared. Data can be obtained via email to the corresponding author.
