

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jtd-24-419	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Data will be shared on recurrence-free survival of patients with stage 1A NSCLC in groups of patients who received pre-operative transthoracic needle biopsy (TNB) and those who did not receive TNB.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	No
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the outcome data may be updated over time.
7	To whom will you share the data?	Thoracic surgeons, medical oncologist, pulmonologist, and radiologist who are interested in studies of pre-operative transthoracic needle biopsy (TNB)
8	For what type of analysis or purpose?	For patients with stage IA non-small-cell lung cancer, pre-operative transthoracic needle biopsy (TNB) was a negative prognostic factor for recurrence.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: kr_finger@naver.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
