

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/tcr-20-1459">http://dx.doi.org/10.21037/tcr-20-1459</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Joint analysis of high expression of mannose receptor and mannose in gastric cancer tissue, but negative correlation, and affect the progress of gastric cancer and poor prognosis.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and clinical pathology report will be shared if requested.
5	When will data availability begin?	Since the issued date of the manuscript.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Pathological specialists and gastrointestinal surgeons are interested in studies of molecular diagnosis of gastric cancer.
8	For what type of analysis or purpose?	For analysis to evaluate the progress and prognosis of patients with gastric cancer.
9	How or where can the data/documents be obtained?	The demander may reach us at our Email address: liussdocc@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
