

## Data Sharing Statement

<b>Article Info</b>	http://dx.doi.org/10.21037/tcr-20-2772	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data in particular will be shared and any other data included in the study will also be available upon request.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis, informed consent form, and clinical data will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Three years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical oncologists and lung radiologists who are interested in studies of radiotherapy of lung cancer.
8	For what type of analysis or purpose?	For analysis to evaluate the efficacy and safety of radiotherapy in lung cancer patients.
9	How or where can the data/documents be obtained?	Emails requesting data sharing could be sent to the email address below: Wangyj9999@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
