

## Data Sharing Statement

<b>Article Info</b>	http://dx.doi.org/10.21037/tcr-20-2539	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data in particular will be shared, we found the correlation of chemokine (C-X-C motif) ligand (CXCL) 1/2/8 expressions with survival profiles in non-small-cell lung cancer (NSCLC) patients, which has seldom been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	1 year
7	To whom will you share the data?	Medical oncologists and lung surgeons who are interested in therapy targets of lung cancer.
8	For what type of analysis or purpose?	For analysis to evaluate the potential therapy target in NSCLC cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: drchenzhiwei@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
