

Materials Design Analysis Reporting (MDAR) Checklist for Authors

The MDAR framework establishes a minimum set of requirements in transparent reporting applicable to studies in the life sciences (see Statement of Task: [doi:10.31222/osf.io/9sm4x](https://doi.org/10.31222/osf.io/9sm4x)). The MDAR checklist is a tool for authors, editors and others seeking to adopt the MDAR framework for transparent reporting in manuscripts and other outputs. Please refer to the MDAR Elaboration Document for additional context for the MDAR framework.

Materials

Antibodies	Yes (indicate where provided: section/paragraph)	n/a
For commercial reagents, provide supplier name, catalogue number and RRID, if available.	We did not use immunohistochemical staining in this experiment	
Cell materials	Yes (indicate where provided: section/paragraph)	n/a
Cell lines: Provide species information, strain. Provide accession number in repository OR supplier name, catalog number, clone number, OR RRID	We didn't conduct cell study and cell culture in this article.	
Primary cultures: Provide species, strain, sex of origin, genetic modification status.	N/A	
Experimental animals	Yes (indicate where provided: section/paragraph)	n/a
Laboratory animals: Provide species, strain, sex, age, genetic modification status. Provide accession number in repository OR supplier name, catalog number, clone number, OR RRID	We didn't conduct animals study in this article.	
Animal observed in or captured from the field: Provide species, sex and age where possible	N/A	
Model organisms: Provide Accession number in repository (where relevant) OR RRID	N/A	
Plants and microbes	Yes (indicate where provided: section/paragraph)	n/a
Plants: provide species and strain, unique accession number if available, and source (including location for collected wild specimens)	We didn't conduct any plant or microbe experiment in this article.	
Microbes: provide species and strain, unique accession number if available, and source	N/A	
Human research participants	Yes (indicate where provided: section/paragraph)	n/a
Identify authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.	Ethics Committee of the Fourth Hospital of Hebei Medical University, NO. 2020K-1334. Page 4, line 97, Materials and methods.	
Provide statement confirming informed consent obtained from study participants.	Page 3, line 86-87, Materials and methods, Information	
Report on age and sex for all study participants.	Page 3, line 87, Materials and Methods, Information	

Design

Study protocol	Yes (indicate where provided: section/paragraph)	n/a
For clinical trials, provide the trial registration number OR cite DOI in manuscript.	N/A, this article didn't describe a clinical trial	
Laboratory protocol	Yes (indicate where provided: section/paragraph)	n/a
Provide DOI or other citation details if detailed step-by-step protocols are available.	N/A	
Experimental study design (statistics details)	Yes (indicate where provided: section/paragraph)	n/a
State whether and how the following have been done, or if they were not carried out.	Page 3-4, line 83-97, Materials and Methods, Information	
Sample size determination	Visual measurement and using X-ray image	
Randomisation	N/A	
Blinding	N/A	
Inclusion/exclusion criteria	Screening of breast cancer radical surgery/breast-conserving specimens suspected of clinical complete remission were selected for the experiment	
Sample definition and in-laboratory replication	Yes (indicate where provided: section/paragraph)	n/a
State number of times the experiment was replicated in laboratory	ALL 100 cases were use 3 methods to mesured 3 times, Page 4-5, line 108-152, Materials and Methods, Information Specimen selection and correction under the microscope	
Define whether data describe technical or biological replicates	For retrospective data research	
Ethics	Yes (indicate where provided: section/paragraph)	n/a
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.	N/A	
Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.	N/A	
Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required, explain why.	Ethics Committee of the Fourth Hospital of Hebei Medical University, NO. 2020K-1334. Page 4, line 97, Materials and methods.	
Dual Use Research of Concern (DURC)	Yes (indicate where provided: section/paragraph)	n/a
If study is subject to dual use research of concern, state the authority granting approval and reference number for the regulatory approval	N/A	

Analysis

Attrition	Yes (indicate where provided: section/paragraph)	n/a
State if sample or data point from the analysis is excluded, and whether the criteria for exclusion were determined and specified in advance.	N/A	
Statistics	Yes (indicate where provided: section/paragraph)	n/a
Describe statistical tests used and justify choice of tests.	Page 6, line 176, Materials and Methods, Statistical analysis;	
Data Availability	Yes (indicate where provided: section/paragraph)	n/a
State whether newly created datasets are available, including protocols for access or restriction on access.	N/A	
If data are publicly available, provide accession number in repository or DOI or URL.	N/A	
If publicly available data are reused, provide accession number in repository or DOI or URL, where possible.	N/A	
Code Availability	Yes (indicate where provided: section/paragraph)	n/a
For all newly generated code and software essential for replicating the main findings of the study:	N/A	
State whether the code or software is available.	N/A	
If code is publicly available, provide accession number in repository, or DOI or URL.	N/A	

Reporting

Adherence to community standards	Yes (indicate where provided: section/paragraph)	n/a
MDAR framework recommends adoption of discipline-specific guidelines, established and endorsed through community initiatives. Journals have their own policy about requiring specific guidelines and recommendations to complement MDAR.		
State if relevant guidelines (eg., ICMJE, MIBBI, ARRIVE) have been followed, and whether a checklist (eg., CONSORT, PRISMA, ARRIVE) is provided with the manuscript.	ICMJE guidelines were followed, as the journal follows ICMJE recommendations for publication.
