

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/tcr-20-3276	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	All data will be shared, and we found that miR-27a is involved in the apoptosis of lung cancer cells and that serum miR-27a levels are related to the prognosis of NSCLC patients, which has seldom been provided in previous.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date ,since the date may be updated over time.
7	To whom will you share the data?	Medical oncologists and thoracic surgeon who are interested in studies of miR-27a.
8	For what type of analysis or purpose?	For analysis to evaluate the clinical value of miR-27a in patients with advanced non-small cell lung cancer.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: xieerfu@njmu.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risk for each request and then provide the data that could be shared.
