

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/tcr-21-794	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The laboratory test data included in all patients of this study will be shared, while protecting the patient's private information.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Medical oncologists and clinicians interested in the field of metabolomics.
8	For what type of analysis or purpose?	Expand the sample size to further validate the conclusions obtained from the existing data. Or develop more clinically meaningful research.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: Zhuzhitu@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
