

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tcr-21-1441">https://dx.doi.org/10.21037/tcr-21-1441</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Y
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data would be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical oncologists who are interested in studies of CFIm25.
8	For what type of analysis or purpose?	For analysis to evaluate the value of CFIm25 in CRC patients.

9	How or where can the data/ documents be obtained?	The data that support the findings of the present study are available from <a href="http://researchdata.org.cn">researchdata.org.cn</a> of Sun Yat-sen University Cancer Center. However, restrictions apply to the availability of these data, which were used under license for the present study and are not publicly available. Data are however available from the authors upon reasonable request and with the permission of Research Data Deposit public platform of Sun Yat-sen University Cancer Center.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
