

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tcr-21-2545">https://dx.doi.org/10.21037/tcr-21-2545</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Tumor markers [carcinoembryonic antigen (CEA), cancer antigen 125 (CA-125), squamous cell carcinoma antigen (SCC)], tumor volume, rectal volume, bladder volume, volumes receiving 30–50 Gy in organs-at-risk (OARs), and the maximum dose (Dmax) received by 1–2 cc in OARs.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan, informed, clinical study report and analytic code will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or date may be updated over time.
7	To whom will you share the data?	Medical oncologists who are interested in studies of cervical cancer.
8	For what type of analysis or purpose?	For analysis to evaluate the safety of some model in cervical cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: zhangwei7820@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
