

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tcr-21-2164	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Our western blot data and part of cell phenotype experiments research data; code used to analyze high-throughput sequencing data.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan and informed consent form will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical oncologists and urologist who are interested in studies of PCa and CRPC.
8	For what type of analysis or purpose?	For analysis to further explore the functions of CENPK in PCa.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: wanqingwei@tmu.edu.cn.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
