

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/tcr-21-2362	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	We will selectively disclose certain data when other scholars when necessary.
2	If not, would you like to share the reason for your decision?	The original data of this study includes a large number of ultrasound images of patients, which contain patient information. The data of these patients are also valuable information for our hospital, so we didn't choose to make all of these data public in the Data Availability Statement.
3	What data in particular will be shared?	-
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	This article is only a preliminary exploration. We will continue to do related research in the future, so these documents can't be shared publicly yet.
5	When will data availability begin?	After the article was published
6	When will data availability end?	One year after the article was published
7	To whom will you share the data?	Scholars who have suggestions for articles.
8	For what type of analysis or purpose?	Further research in related fields.
9	How or where can the data/documents be obtained?	If scholars need our data, they can contact our corresponding author, we will be pleased to provide the complete data to help patients with this disease.
10	Any other restrictions?	-
