

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tcr-21-2804	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	All the data in this present study can be shared if necessary.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Clinicians and Medical researchers who are interested in our study.
8	For what type of analysis or purpose?	This study acts as an adjunct for the identification ability for low-risk lesions by improving clinicians' expertise and subjective judgement, resulting in more objective and effective diagnosis and screening of oral cancers in OPMDs.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: liminqi@sdu.edu.cn.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
