ABSTRACT				
Abstract	2	See the PRISMA 2020 for Abstracts checklist (Table 2).	Page2/Line27-55	Abstract
INTRODUCTION				
Rationale	3	Describe the rationale for the review in the context of existing knowledge.	Page3-4/Line58-97	Introduction/Paragraph1-3
Objectives	4	Provide an explicit statement of the objective(s) or question(s) the review addresses.	Page4/Line98-108	Introduction/Paragraph4
METHODS				
Eligibility criteria	5	Specify the inclusion and exclusion criteria for the review and how studies were grouped for the syntheses.	Page5/Line129-140	Method/Paragraph2
Information sources	6	Specify all databases, registers, websites, organisations, reference lists and other sources searched or consulted to identify studies. Specify the date when each source was last searched or consulted.	Page4-5/Line112-126	Method/Paragraph1
Search strategy	7	Present the full search strategies for all databases, registers and websites, including any filters and limits used.	Page4-5/Line112-126	Method/Paragraph1
Selection process	8	Specify the methods used to decide whether a study met the inclusion criteria of the review, including how many reviewers screened each record and each report retrieved, whether they worked independently, and if applicable, details of automation tools used in the process.	Page5/Line129-140	Method/Paragraph2
Data collection process	9	Specify the methods used to collect data from reports, including how many reviewers collected data from each report, whether they worked independently, any processes for obtaining or confirming data from study investigators, and if applicable, details of automation tools used in the process.	Page5-6/Line147-157	Method/Paragraph4
Data items	10a	List and define all outcomes for which data were sought. Specify whether all results that were compatible with each outcome domain in each study were sought (e.g. for all measures, time points, analyses), and if not, the methods used to decide which results to collect.	Page5/Line143-144	Method/Paragraph3
	10b	List and define all other variables for which data were sought (e.g. participant and intervention characteristics, funding sources). Describe any assumptions made about any missing or unclear information.	Page5/Line143-144	Method/Paragraph3
