

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tcr-22-681	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes, I would like to share the data.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The EGFR mutation data of our study.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Medical oncologists and lung cancer surgeons who are interested in studies of precision medicine.
8	For what type of analysis or purpose?	For analysis to evaluate the consistency of different samples.
9	How or where can the data/documents be obtained?	Emails could be sent to the address of corresponding author.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
