

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tcr-22-1267	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	In particular, the sharing of immunohistochemical pathological images was seldom found in previous experimental studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan, and informed consent form will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Medical oncologists and dermatologists who are interested in studies of cSCC.
8	For what type of analysis or purpose?	To further study and analyze the mechanism of KIF11 and MCM2 in cutaneous squamous cell carcinoma.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: harice7@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
