

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tcr-22-1194	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	No.
2	If not, would you like to share the reason for your decision?	Actually, all the clinical data we collected was listed in paper and no other data was preserved by our team, excepted the patients' private information.
3	What data in particular will be shared?	-
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Five years within the publication date, since the treatment strategy may be updated over time.
7	To whom will you share the data?	Readers who were interested in the neoadjuvant chemoimmunotherapy.
8	For what type of analysis or purpose?	For analysis to evaluate the efficacy of neoadjuvant chemoimmunotherapy.
9	How or where can the data/documents be obtained?	Email to us through the email boshifan@yeah.net.
10	Any other restrictions?	All the requests for shared data will be balanced for the potential benefits and risks.
