

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tcr-21-2756">https://dx.doi.org/10.21037/tcr-21-2756</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data will be shared. The demographic and clinicopathological data of our patients will also be shared if needed.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Yes. Study protocol, statistical analysis plan, and analytic code in particular will be shared.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the treatment or survival data may be updated over time.
7	To whom will you share the data?	Medical oncologists and orthopedists who are interested in studies of osteosarcoma.
8	For what type of analysis or purpose?	Published survival data related to osteosarcoma are scarce in China.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: fengliwen2012@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
