

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tcr-22-2276	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The raw data of experiment in this study will be shared, including RT-PCR, western blotting, cell proliferation/colony, cell apoptosis and cell-cycle progression in gastric cancer cell lines.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the raw data may be updated over time.
7	To whom will you share the data?	Medical oncologists and gastric surgeons who are interested in this study.
8	For what type of analysis or purpose?	For analysis to evaluate the role of Eag1 in the development of gastric cancer.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: mqlhome76@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
