

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tcr-22-2286">https://dx.doi.org/10.21037/tcr-22-2286</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Survival of patients with lung metastases and complications of treatment, etc.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and details of treatment will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	All readers interested in the management of patients with lung metastases.
8	For what type of analysis or purpose?	For the treatment of patients with lung metastases.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: zlyysunnyzheng@zzu.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
