

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tcr-22-2257">https://dx.doi.org/10.21037/tcr-22-2257</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response</b> (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The clinicopathological features and follow-up information will be shared.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Medical oncologists and thyroid surgeons who are interested in studies of PTL
8	For what type of analysis or purpose?	For clinical analysis in PTL patients.
9	How or where can the data/documents be obtained?	The datasets used and/or analyzed during the current study are available from the corresponding author on reasonable request.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
