

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tcr-23-517	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The proteomic data in particular will be shared if requested
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol will be shared if requested, but informed consent form will be not shared.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Anyone who is interested in studies of extracellular vesicles.
8	For what type of analysis or purpose?	For analysis to identify the protein profile of small extracellular vesicles in cervical cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: nraphatp@medicine.psu.ac.th
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
