

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tcr-23-2024	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The proportions of peripheral blood immune cell subsets before and after treatment, as well as their prognostic information will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	We are willing to provide the statistical analysis plan, informed consent form, and clinical study report upon request for further transparency and verification purposes
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	The data will be shared with interested researchers, upon request, who are committed to handling the data responsibly, in adherence to ethical guidelines, and for legitimate research purposes.
8	For what type of analysis or purpose?	The data will be shared with researchers conducting relevant studies on NPC.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 657994383@qq.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
