

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tcr-23-2189	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data of APOC1P1 was significantly down regulated in HCC tissues and cell lines will be shared. And we also found APOC1P1 was shown to regulate PTEN expression by targeting miR-106b to suppress HCC progression.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Hepatobiliary surgeons who are interested in studies of HCC.
8	For what type of analysis or purpose?	Analysis the potential role of APOC1P1 in HCC diagnosis and therapy.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: dr_qianyi@ntu.edu.cn
10	Any other restrictions?	No.
