Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Model, and the results of MRI brain tumor image segmentation method using the model based on the improved UNet network will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, the details of model will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or method may be updated over time
7	To whom will you share the data?	For those interested in segmentation method of magnetic resonance imaging brain tumor images.
8	For what type of analysis or purpose?	For analysis and research on segmentation method of magnetic resonance imaging brain tumor images.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: zyc19870904@163.com ; m19971977727@163.com ;
