

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tcr-23-1796	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The IHC of ADCY2 in bladder cancer specimen will be shared. The relation between bladder cancer survival and ADCY2 expression will be shared, and we find the potential function of ADCY2 in tumor microenvironment and immune infiltration.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and clinical information will also be shared if requested.
5	When will data availability begins?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Medical oncologists and urological surgeons who are interested in studies of ADCY.
8	For what type of analysis or purpose?	For analysis to evaluate the prognostic function of ADCY2 in bladder cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: daring_wh@smmu.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
