

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tcr-24-1155	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	All relevant and necessary data can be shared. For example, the parameters used to build the predictive model.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Researchers who studied hepatocellular carcinoma.
8	For what type of analysis or purpose?	To predict the prognosis of patients with hepatocellular carcinoma.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: xuziyuan@njucm.edu.cn.
10	Any other restrictions?	We will carefully weigh the potential benefits and risks associated with each request before determining the data that can be shared. This approach ensures a thoughtful consideration of the implications and aligns with our commitment to responsible data sharing practices.
