

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/tlcr-21-202">http://dx.doi.org/10.21037/tlcr-21-202</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Some clinical data, 3D printing models during the study are available from the corresponding author by request.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	We will share the data when the article is published.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	12 months within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Our data can be shared only with interested parties willing to enter into a data-sharing agreement, or only with interested parties who bring a specific analysis proposal to a third party for approval.
8	For what type of analysis or purpose?	For the purpose of communication with each other.
9	How or where can the data/documents be obtained?	All data requests should be submitted to the corresponding author for consideration. Access to anonymised data may be granted following review.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
