

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/tlcr-20-920">http://dx.doi.org/10.21037/tlcr-20-920</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	YES
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data and the circ-10720 levels in particular. Other information requested related with the study will be considered under appropriate justification.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Informed consent form will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	To anyone interested in the study.
8	For what type of analysis or purpose?	To analyze circ-10720 impact on time to relapse of NSCLC patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: anavarroponz@ub.edu
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
