

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tlcr-21-543	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Mutation and serum biomarker data.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan will also be shared if requested.
5	When will data availability begin?	One year after the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Medical oncologists who are interested in studies of cancer genetics.
8	For what type of analysis or purpose?	For analysis to evaluate the genomic profiles between plasma and tissues samples.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: doctorzangys@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
