

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tlcr-21-460	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Survival data and response data.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study design, survival data, response data and informed consent form.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	In researchers interested in biomarkers for cancer immunotherapy and in researchers studying cancer cachexia syndrome.
8	For what type of analysis or purpose?	For metaanalyses that study the effect of cancer cachexia on cancer patients.
9	How or where can the data/documents be obtained?	Documents will be available upon request in the e-mail below: kostas@rounis.gr
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
