

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tlcr-21-501	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Although anonymized information, in order to share data, it must go through the IRB approval process of each site.
2	If not, would you like to share the reason for your decision?	
3	What data in particular will be shared?	Any information that has been approved by the IRB can be shared. In particular, information related to drug response rates and survival rates can be shared.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Yes
5	When will data availability begin?	Data can be used after approval by the IRB of each participating site.
6	When will data availability end?	Data can be used until the period permitted by the IRB of each participating site.
7	To whom will you share the data?	We can share data on research projects that have similar interests to our research.
8	For what type of analysis or purpose?	About research similar to our research project
9	How or where can the data/documents be obtained?	Approved data can be requested from syl0801@korea.ac.kr
10	Any other restrictions?	No
