

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tlcr-21-971">https://dx.doi.org/10.21037/tlcr-21-971</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	CT data after eliminating the private information of the patients would be shared upon reasonable request.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan are available upon reasonable request.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year within the publication date.
7	To whom will you share the data?	Practicing doctors who are interested in studies of subsolid nodules.
8	For what type of analysis or purpose?	For analysis to evaluate the invasiveness of pulmonary subsolid nodules.
9	How or where can the data/documents be obtained?	We will set up a database or server and have other algorithms to conduct experiments in our server. Please email the corresponding authors to get the database.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared. Besides, commercial usage is denied. And it may not be distributed, transmitted, displayed, published adapted without consent.
