Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tlcr-21-870	
Item	**Question**	**Authors' Response** （**place - if not applicable**）
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The anonymized test datasets and additional documents used in this study can be made available upon reasonable request to the corresponding author with institutional approval. EBUS images from Yonsei University College of Medicine, Severance Hospital, were used under license for the current study and are not publicly available. The code used to train the deep learning model cannot be released. However, the online demo for this model will be available on the website (https://waycen.com/) at publication.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	-
5	When will data availability begin?	When the article is published.
6	When will data availability end?	-
7	To whom will you share the data?	Unlimited.
8	For what type of analysis or purpose?	Unlimited.
9	How or where can the data/documents be obtained?	Bring up a request to the corresponding author.
10	Any other restrictions?	-
