

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tlcr-22-312	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Lung metastases and body weight of mice during in vivo experiments.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis methods will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Researchers who focus on triptolide and TP53 GOF and its role in lung adenocarcinoma.
8	For what type of analysis or purpose?	To analyze the effect and related mechanism of triptolide in lung adenocarcinoma carrying TP53 GOF mutation.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 1151626484@qq.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
