

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tlcr-22-385	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The detailed procedure of the release maneuvers and the survival data in particular will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The study protocol, statistical analysis plan, informed consent form and clinical report will be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year within the publication data, since the survival data and surgical techniques will be updated over time.
7	To whom will you share the data?	Thoracic surgeons who are interested in the current study.
8	For what type of analysis or purpose?	For learning and communicating the release maneuvers or surgical techniques in airway surgery.
9	How or where can the data/documents be obtained?	The request should be sent to the corresponding author Shuben Li via email. (13500030280@163.com)
10	Any other restrictions?	All requests will be considered and discussed with the co-authors of the current study.
