

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tlcr-22-557	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The pain intensity after needle localization in particular will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	We would like to share study protocol, statistical analysis plan and result and informed consent form.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique and pain data may be updated over time.
7	To whom will you share the data?	Thoracic surgeons or anesthesiologists who are interested in acute pain related to preoperative localization of pulmonary nodules.
8	For what type of analysis or purpose?	For analysis to evaluate and prevent the acute pain after preoperative localization in patients with small pulmonary modules.
9	How or where can the data/documents be obtained?	Emails should be sent to the address below to obtain the shared data: qiuyuweixk@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
