<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data in particular will be shared. We also have incomplete DFS data, which are not included in this study, to share.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, and clinical study report will also be shared if requested.
5	When will data availability begin?	Since some other part of our research is still in analysis, and we might publish the data in future, we would like to share the data 1 year after the publication date.
6	When will data availability end?	Three years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Medical oncologists and thoracic surgeons who are interested in studies of SCLC.
8	For what type of analysis or purpose?	For analysis to evaluate the adjuvant therapy of patients with resected small cell lung cancer.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the share date: jinkaiqi@yahoo.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
