

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tlcr-23-7">https://dx.doi.org/10.21037/tlcr-23-7</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The original data that were analyzed for the study, excluding patients who were not identified as prescribed with conventional chemotherapy during first immunotherapy.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Yes. We will share the original code and the study results that were used to analyze the data if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Medical doctors and researchers.
8	For what type of analysis or purpose?	For data analysis and developing prediction models for patients on-going immunotherapy.
9	How or where can the data/documents be obtained?	Emails to the corresponding author: <a href="mailto:yurangpark@yuhs.ac">yurangpark@yuhs.ac</a> .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
