

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tlcr-23-118	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes, upon reasonable request
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Deidentified data of PD-L1 expression and EGFR mutation, as well survival data of both cohorts.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	-
5	When will data availability begin?	From the publication date
6	When will data availability end?	Two years after the publication date, since the technique or survival data may be updated on a follow up study.
7	To whom will you share the data?	Researchers and medical practitioners who contacted the corresponding/first author
8	For what type of analysis or purpose?	For systematic review, meta-analysis, and follow-up research
9	How or where can the data/documents be obtained?	The corresponding/first author will send the data through e-mail
10	Any other restrictions?	None, as long as the published article is properly cited
