

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tlcr-23-567	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The specific data that will be shared includes information regarding the databases used, as well as primer sequences, siRNA sequences, and information about the vector used.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Medical oncologists and cardiothoracic surgeons interested in PFKP and lung cancer research.
8	For what type of analysis or purpose?	To investigate the mechanism by which the gene PFKP develops resistance to cisplatin in lung cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: jianfei051@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
